

Latest news from Fujirebio Volume 28 - December 2016

We are pleased to send you the December 2016 edition of our monthly newsletter:

- Mesothelioma: Download the South West Area Mesothelin and Premetrexed trial (SWAMP) paper
- Re-certification (VDSCP) of our Lumipulse® G 25-OH Vitamin D assay
- Testimonial about the LUMIPULSE® G600II from an established urological group practice
- Please accept our seasonal greetings for 2016-2017

Do not hesitate to forward this email containing useful product news and background information from Fujirebio to your colleagues or partners. For instructions on how to unsubscribe from this newsletter please follow the link at the end of this newsletter.

MESOTHELIOMA

Download the South West Area Mesothelin and Premetrexed trial (SWAMP) paper

It is estimated that within the next 10 - 20 years the incidence of Mesothelioma is estimated to double in many countries. Can introducing an improved in vitro diagnostic test now help you identify those with previous exposure who are at risk? Download this prospective study published in 2015 by a UK group addressing the measurement of mesothelin (***access requires a Premium eServices account***).

Re-certification (VDSCP) of our Lumipulse G 25-OH Vitamin D assay

Fujirebio has completed the second full year cycle within the VDSCP (= Vitamin D Standardization Certification

25-OH VITAMIN D

Program), confirming the excellent results of last year. In addition to this re-certification our assay has been obtaining high quality results in different clinical populations; please contact us for more details (**access to the overview file below requires a Premium eServices account**).

TESTIMONIAL

Field report of an established urological group practice with the LUMIPULSE® G600II system

The urologic practice Lutherer in Mayen, Germany was founded in 1997 by Dr. med. Siegfried Lutherer and is still in family hands. Christian Lutherer overtook half of the praxis in 2012, he became the owner the year after. In 2012, the move in a bigger practice took place with an own OP and laboratory within the praxis. They treat both publicly and privately insured patients. Therapy focus are ambulant surgeries with laser as well as urological prevention/laboratory services.

SEASON'S GREETINGS

Please accept our seasonal greetings for 2016-2017

We would like to thank you for following Fujirebio in 2016. This was a rich and eventful year for our company with the launch of several new, differentiating products and the entry of the LUMIPULSE G series in brand new territories. We would like to wish you happy holidays and a successful 2017 with this modest video.
